

Customize Wireless RF Transmitter / Remote Control

We can design and manufacture the transmitters according to your requirements.

The following specific parameters can be customized:

- Appearance of circuit board or box
- Frequency: 315MHz, 433MHz or other frequencies
- Channels / Buttons: from 1 channel to 15 channels or more
- Encode: Learning code, Fixed code or Rolling code
- Power supply: Piles, DC Power or AC Power Adapter
- Emission distance: 10M to 3000M
- Antenna: Internal antenna or External antenna
- Minimum order quantity: 100~1000 units
- Time of producing samples: 10~20 days
