

1/2/3/4 Gang Crystal Glass Panel Remote Touch Light Switch with LED Indicator US Style

Package Include:

- 1 x Touch Wall Light Switch
- 1 x Mini Remote Control
- 2 x Screws
- 1 x User Manual

Switch Specification:

- Dimension: 115mm*78mm*42mm
- Material: Crystal Glass Panel
- Operating Voltage: AC110V~250V/50Hz/60Hz
- Maximum Current for Each Gang: 5A
- Maximum Power for Each Gang: 1000W/220V or 600W/120V
- Self Consuming Power: Less than 0.1mW
- Operating Environment: -30~70 Centigrade; Less than 95%RH
- Lifelong: 100,000 Times of Operation

Installation is as same as normal light switch, so does not require Negative line; replace traditional wall switch completely and smoothly. Using with all types of lights including Incandescent lamps, Halogen lamps, Fluorescent lamps, Energy saving lamps.

Note: The switch is not suitable for LED lamps or inductive ballast fluorescent, or any lamps with load power lower than 15W.

Switch Operation:

Touch the control icon on the switch surface, the LED indicator turns red, which means turning on the lamp; Touch the icon again, turns off the lamp.

Remote Control Specification:

- Size: 61mm x 33mm x 12mm
- Buttons: 4 keys (A, B, C, D)
- Control Lamps: 3 pcs
- Remote Distance: 20m
- Current: 15mA
- Frequency: 433.92 MHz
- Battery: 1 x 27A/12V battery (included, can be used for 12 months)
- Press key A, key B, key C, the corresponding lamp will be ON; press key D, all lamps will be OFF.

Remote Control Operation:

Register the remote: Press the effective touch zone of switch for 5 seconds; you will hear the sound of "Du". Then press key A, key B or key C. You will register successfully after you hear the sound of "Du".

Cancel one registered remote: Press the effective touch zone of switch for 5 seconds; you will hear the sound of "Du". Then press key A, key B or key C. If this operation is successful, you can hear two continuum sounds of "Du".

Cancel all registered remotes: Press the touch zone of switch for 10 seconds. You can hear the first sound of "Du" when it is in 5 seconds; and you can hear the second sound of "Du" when it is in 10 seconds, which means this operation is successful.

Note:

Press key D, all lamps will be off.

Each switch are capable of registering 8 remote control buttons, the first one will be canceled when you register the ninth one.

Two switches cannot be registered at the same time.

Seconds' interval is required for two times of remote control operation; otherwise the operation will be ignored.
